Killing

---

*In this ultimate guide to monster  
killing you learn all the information you  
will need to be an amazing monster slayer  
and kill deadly beasts. No one will ever  
have known you were an ordinary person  
once you have read this guide.*

## Weaponry

It is vitally important to have the correct and clean weaponry. It is useful to take good care of your weapons: they will rust and become unhygienic extremely quickly.

## Mace

The mace is a very strong and powerful weapon but like all weapons it is useless when not sharpened. It should be cleaned with spring water.

## Battle-Axe

The battle-axe is a very hard weapon to control because of the heavy axe head. Despite this once you know how to

control it many people say it is one of the easiest weapons to use. It is recommended that you bathe your are weakly.

## Sword

The sword should be made of the strongest steel or titanium but everyone has their own opinion but it has to be metal

The sword should be sharpened every 12 hours.

# Armour

Your armour must have been fitted by a dark angel and be enchanted with an elfish king's tribal head piece and a devils horn. It must be three centre meters thick and be washed with enchanted water (this can only be found in the hidden world of atlantes).

# Preparing for battle

*Before every battle you must say good bye to all your loved ones because you may not come back from a battle: but a hero will always die fighting.*

## Strategy

*All heroes like their own kind of strategy my favourite is distraction imagine you are behind a tree looking at a monster but instead of running and attacking it you throw a goat toward the monster, it distracts it so you can stab it in the back.*

# Monsters You May Encounter

## The Devilish Swamp Bat

The devilish swamp bat is a very strange beast because it has wings but it live under water. No one knows much about the devilish swamp bat. This makes it very deadly

**WARNING** — the deadly swamp bat has fangs as long as swords!

## The Deadly Cutie Pie

The deadly cutie pie looks like a kitten but underneath its fur there are tens of thousands of spines that will paralyse you with one prick once you've been pricked the cutie pie will take you back to its lair (which is a dark cave) and will eat you in

*one gulp. WARNING -*  
*DON'T fall for its cuteness*

## *Taking Care of Yourself*

*It is important that you keep safe when battling, these can help. Thick armour, strong shields and protective measures.*

*How to Choose Your Battles*

---

*And Secure Your Rewards*

---

Remember not all monsters are worth fighting and you've got to make sure you get your rewards the one way to do this is to threaten. Threaten that you will kill them if they don't give you the reward.
