

HOW TO
DEFEAT A
MONSTER

BY
BEOWULF

Weaponry

Weapons must be chosen wisely and you must and most importantly take good care of them. You must have had used a sword before. After every battle your weapon must be cleaned due to the conditions of the blood and rust that could stain it. You must be strong enough to hold a sword and shield in each hand because they could be quite heavy. You will also need weapons such as knives, axes, daggers and maybe even a bow and arrow.

Armour

Your armour will have to be heavy enough and suitable for moving in a flexible way. It must be washable and comfortable enough in battle and afterwards. Your armour must be strong enough to survive while fighting a monster. Your armour must also be washed after every battle. This is because of the disgusting smell and stained blood and rust over it. Your armour could be water and fire proof if not it won't matter as long as you can fight in it.

Preparing for battle

Preparing for battle means if you are strong enough and how to get strong enough. Preparing for battle also means how you would say your goodbyes. First of all to get fit enough you will have to do lots of exercise and eat healthy food so things like carrots, peas, parsnips and stew. Saying your goodbyes is one of the hard parts it's hard because you might not see your family again. So saying your goodbyes would have to be sent through a letter or said face to face.

Strategy

The strategy is like the plan so where to hide and when to force into battle. Hiding in bushes and trees gives you a massive advantage with stealth and ambushing. Bushes can help with not being seen and trees help with the height so they can't see you. So that's the two spots where I recommend hiding.

Beasts you may encounter

Some of the horrific monsters you could come across are THE THREE TOUNGED LIZARD,

THE BBG/THE BIG BAD GIANT, THE EIGHT EYED MONKEY and the most dreaded of all THE KING DIPLODOCOLUS!

Taking Care of Yourself

To take care of yourself you have to be aware at all times say a volcano was going to erupt you would have to be aware of the noises. Another meaning of taking care of yourself is knowing if you've been betrayed or not so you will have to take care of yourself by being aware AGAIN.

How to choose your battles and secure your rewards

Choosing your battle is hard in a way because you will have to know if the monster is worth fighting or not because you might not be ready to fight a monster more powerful than you. If you know you can win go ahead and battle the monster but if you think it's risky maybe leave it for another day. Also will you get paid the amount you got promised?
