Theaded cow-weaknesses  
are when people run at  
them. And strong parts  
are kicking and killing

And their strong points  
are attacking at night.

## TAKING CARE OF YOURSELF

How will you look after yourself? You need to be aware of different types of danger .You need to know where danger is, volcanoes, tornadoes and sea storms. And if you get hurt what do you do? If you have hurt your leg then find the nearest stick that is in line with your ribs if

needed pull of some wood of a tree and slowly walk toward to the closes town and ask for help. If you have cut between your palm and elbow keep your arm up in the air to stop the blood coming out .If hurt between the hips and neck then find a safe leaf and place it on gently then put pressor on the injury and then find help.

## HOW TO CHOOSE YOUR BATTLE AND SECURE YOUR REWARDS

Sometimes you might be faced with some man/woman how doesn't want to pay you, then you have a few options:

No.1 Ask nicely they might change their minds

No.2 Threaten them

No.3 Pull out your sword and pretend to kill them

If none of these options work then there is always

No.4 Kill them straight away, take their money and expensive stuff
