

How to slay
a monster

by Beowulf

Weaponry

It is exceedingly important to have the most brutal weapons if you are going to win this monster slaughter. It is also important to sharpen your vile weapons so that they don't come blunt and useless for this unpleasant mission.

Swords

The sword's capacity should be made of the strongest steel made by the richest people of the land, it should be sharpened daily to keep the nice sharp point and it must be cleaned after every slaughter and oiled to prevent rusting.

Armour

Your armour should be the strongest metal and sword prove so you don't get killed or if you want to be manly and take the risk. You should keep it up in a wardrobe locked up to prevent being stolen.

Preparing for a battle

When preparing for a battle you will need to do lots of exercise and say your lovely goodbyes to your family and friends in case the mission gets nasty.

Strategy

for your strategy it depends on your personality on how you are going to defeat it, but still make it a good one and don't forget to only wash or bathe in blood to make your monster attracted to your smell. When it comes running at you get into attack position and beat the horrible savage up. BE EVERYONES HERO!

Beasts you may encounter

Beasts you may encounter may be ugly or brutal but you will get through that don't worry. You may come across the three eyed pig, six headed bunny, the old sea hag, the one eyed yeti and fluffy the 15,000 headed cow! They may sound scary but you can still beat them and become the hero you have always wanted to be.

Taking care of yourself

If you are going to win this battle you have got to be aware of any danger lurking behind you or watching you while you sleep.

Make sure you know what to do if another monster comes for you and last of all you have got to rest your cuts and wounds so you come back fighting.
